Vol. VII.

EDMONTON, ALBERTA, SATURDAY, OCT. 9TH, 1886.

No. 49.

TELEGRAPHIC.

WINNIPEG, Oct. 6, 1886.

Nominations for the Quebec local elections on Thursday.

G. B. Spencer, formerly collector of customs at Winnipeg, is dead.

Sir George Stephen has again sailed for England on Canadian Pacific business.

The Canadian Pacific has been granted the government telegraph lines in British Columbia.

There are some signs of Indian uneasiness about the border, but no trouble with the Canadian Indians is expected.

Prairie fires prevailing in many portions of Manitoba. About Morden, Birtle and Minnedosa many settlers have lost their all, and in one case a woman was fatally burned.

Gladstone has presented a petition from five hundred thousand Irish ladies in favor of home rule. Churchill purposes to prepare a measure to settle the Irish land question.

Chiefs Crowfoot and Three Bulls have been regally entertained in Montreal and Quebec and have quite fallen in love with the white men. They have decided to join the Catholic church. Three Blood chiefs were sent through east to night for a similar purpose of impressing them with the power of the whites.

A serious accident occurred on the Canadian Pacific some fifty or sixty miles east of Rat Portage on Sunday morning last. A slide had occurred at the side of a lake and a plunge occurred when the express for Winnipeg reached that point. Engineer Fetterly was killed, six others injured and all the train destroyed by fire, including five Pullman's.

Hugh Sutherland, president of the Hudson's Bay railway company, accompanied by Mann and Holt contractors for the part of the road within the province of Manitoba, arrived in Winnipeg on Sunday last. Sutherland states that with English capital and the aid of the local government forty or sixty miles of road will be built this year, and that assurances have been given by English capitalists, if local confidence in the scheme is shown to this extent, that funds will be forthcoming to complete the entire line. With this object in view he will again visit England after the holidays. Rails for sixty miles have already been shipped and he says that steamship service has been fully arranged for. There is more or less skepticism here as to the completion of the scheme, but in any event work has already been commenced near the city on the first section and a large force of men has been employed. There has also been considerable improvement in real estate on the strength of it.

WINNIPEG, Oct. 7, 1886.

Quesnelle an Indian scout was held up at Maple creek by Piegan Indians lately, who subsequently held up the police detachment sent to arrest them.

Red Crow, One Spot and North Axe, chiefs of the Blood and Piegan Indians passed through for the east last night in charge of John L'Hereux of the Indian department.

BATTLEFORD, Oct. 8, 1886.

Weather very pleasant.

Indian agent McKay has gone east to meet his family.

Indian payments passed off quietly. Only \$1,100 paid out.

The industrial school was opened in its new building last week.

Sickness dying away in the barracks but increasing among the civilians.

Potatoes from Prince Albert coming in freely and selling at \$1.25 to \$1.50.

Bishop Grandin and Rev. Pere Andre left on Wednesday with half a dozen pupils for the High river industrial school.

A hospital, two barrack rooms each one hundred by thirty feet, two stables and a mess room are being built for the police here.

A despatch from Indian Head says that Garnett, accused of robbing the Prince Albert mail, has been sentenced to 14 years in Manitoba penitentiary. The amount secured by the robber is estimated at 1,100.

CALGARY, Oct. 8, 1886.

Freight for the north is plenty and freighters scarce.

Wm. Mitchell, tried for the DeRaimboulville robbery, was acquitted.

Horse thieves are rampant. Seven horses were stolen lately at Crowfoot, and there is news of other thefts daily.

Donald McLeod and J. White, M.P., went north on Monday. They will travel through their timber limits and arrange to build a mill at the Red Deer.

TREASURY payments at Lac Ste. Anne to-day and on Monday.

LOCAL.

J. LARONDE arrived on Tuesday with freight for Ross Bros.

REV. J. H. HOWARD returned from Calgary on Wednesday.

M. McKINNON arrived on Wednesday with about 1,700 sheep.

V. ANDERSON arrived on Monday with freight for Ross Bros.

A. FURNACE for the Presbyterian church arrived on Thursday.

J. KELLY has sheeted his dwelling house with dressed lumber.

E. CARRY arrived from Winnipeg and Calgary on Monday evening.

COLLINS and FOLEY arrived on Thursday with freight for Ross Bros.

R. HARDISTY and family arrived from Banff and Calgary on Sunday evening.

MACKENZIE of Red Deer arrived on Friday with freight for A. Macdonald & Co.

The stampede to Haney's mine returned on Monday. Most of them took up claims.

D. McLEOD's train of carts arrived on Tuesday with freight for Stewart & Bannerman.

CAPT. FAVEL of the H. B. Athabasca steamer Grahame arrived from the Landing this week.

S. CUNNINGHAM, M. N.W. C. for St. Albert, left on Wednesday for Regina to attend the council.

AD. McPHERSON's train arrived on Monday with freight for Brown & Curry and Norris & Carey.

G. P. ROY and party, surveying the trail from Red Deer northward, arrived on Monday evening.

MEASLES has broken out at Lesser Slave lake and had occasioned several deaths at last accounts.

FRASER & Co. will saw about 400,000 feet of lumber this season. Their supply of logs has nearly run out.

JAS. McDUGALL, late H. B. factor at Edmonton arrived from Athabasca Landing on Sunday evening.

The school furniture and appliances furnished by the board of education were received by the Sturgeon district on Monday.

A FORCE of police under Supt. Griesbach went to St. Albert on Tuesday to search for the parties who killed D. Maloney's cow last week.

R. STRACHAN, J. J. Hargrave, F. D. Wilson and J. St. G. Jellott left for Haney's mine on Friday, the latter to locate claims for the three former.

STAGE left Thursday morning, Jas. McDougall of the H. B. Co., A. W. R. Markley insurance agent, and Mr. Purcell of the mining scow, passengers.

AD. McPHERSON has been awarded the contract of freighting telegraph wire from Calgary along the new telegraph line between Edmonton and Saddle lake.

SMOKE from prairie fires could be seen on Monday south east of the Beaver hills—the first of the season. Fires are running along the telegraph line near Elenor.

THE election of school trustees for the territories takes place on Monday next, 11th inst. The election commences at 12 o'clock and if a poll is demanded continues until 4.

TREASURY payments in the Peace hills district have not been made yet, as the Indians are busy with their fall work and the agent does not wish to take them from it as long as anything can be done.

The notorious Keeshkewasis was seen by some Indians near Peace hills in the early part of this week, and two stolen horses that he had with him stolen from him. The horses are now in possession of the Indians awaiting claimants.

THE treasurer of the agricultural society will be prepared to pay the prize money due from the late exhibition after Nov. 1st. Appeals against the awards must be handed in to the secretary in writing within ten days after the exhibition.

COURT has been postponed until Nov. 23rd. These frequent postponements of court are becoming rather stale. Judges should remember that they exist for the public not the public for them, and that the public convenience is of greater importance than theirs.

BRACK arrived Monday evening, P. Campbell No. 2 driver, F. Ross of Ross Bros. and Simonee Lee, uncle of P. Daly, druggist, passengers. Mr. Lee is a professional actor, one of the oldest in Canada, but has retired from the stage and will probably reside here permanently.

J. B. TYRREL, geological surveyor, arrived from Haney's mine on Monday evening and left for Pigeon lake on Tuesday. He will explore the country south-west of Pigeon lake to the Mountain fort this fall.

THE police returned from their search for Keeshkewasis in the neighborhood of St. Albert on Thursday. They found that he had crossed the Saskatchewan from the Stoney Plain reserve about Sunday or Monday. He had with him the two horses which he had stolen. No certain information was received of any strange Indians having been seen with him, but the Stoney Plain Indians were camped close together for fear of such. Possibly George had told them of strange Indians in order that they might be the more afraid to lay hands on him. It was found that he had cleared out the dug out of a man named Stringer on the road to the Stoney Plain, but Stringer recovered part of his stuff which George had thrown away, it having been of no use to him. M. McCauley recovered the saddle which was on the horse that George stole from him from a man who had paid \$25 for it.

EDMONTON BULLETIN, OCT. 9, 1886.

THE EXHIBITION

Of Thursday last taken altogether was the most successful ever held in Edmonton. The number of entries—over 500—was greater than ever before, the attendance larger, the interest manifested keener, and the exhibits better. The weather both previous to and during the day was all that could be desired. The live stock exhibits taken alone were scarcely up to the mark of some former years in point of numbers, but the display in all classes in the hall—A. Macdonald & Co's building—has never been approached here in quantity and quality, and seldom excelled in the latter anywhere. Horses of the imported classes showed an improvement but the native horses a falling off compared with other years. In cattle the case was similar, the thoroughbred showed up better in proportion to their numbers than the grades. The reason doubtless is that a farmer who invests in improved stock recognizes the advisability of advertising its superiority and avails himself of the show as a means of doing so, while his neighbor who has only common stock realizes that it is useless to compete for public favor against improved animals and therefore leaves them at home. The horse importations of last fall and spring by Adamson Bros., Geo. Hutton and W. Maloney, especially the latter, added greatly to the attractions of the show. Pigs were conspicuous by their absence. This is to be regretted, for in this country of mixed farming the pig naturally takes an important place, and every effort to raise the standard of excellence should be made. Sheep were nearly as neglected as pigs, there being only one exhibitor. It may be that the trouble of transporting pigs and sheep to the show ground, which would cost more than the prizes to be won would amount to, had a deterrent effect. In view of this it would probably be better in future to lessen the number of sections in these classes and increase the amount of the prizes in those remaining. The display of domestic fowls was larger than usual and very creditable, but the coops were not large enough to show the birds to advantage. Only one pair of ducks was shown and no geese or turkeys; probably for the same reason as assigned in the case of pigs and sheep. In grain there was a fair amount of competition and the samples were good, but had threshing been more generally over there would probably have been more shown. The exhibits of grain in the straw and native grasses were excellent and were a most appropriate decoration to the agricultural hall. The roots and vegetables were the strong point of the show. The competition was keen in every class and the exhibits marvellous, especially considering that they were not the product of fancy or show gardening. Cabbages girthed 4 ft 1 in, cauliflower 3 ft 1 1/2 in, pumpkins perfectly ripe 4 ft 1 in, turnips 2 ft 4 in weighing 23 lbs, squash 4 ft 3 in, vegetable marrow 2 ft 1 in by 3 ft 7 in, beets 1 ft 8 in, potatoes 1 ft by 1 ft 8 in, white onions 1 ft 2 in, red onions 1 ft 1 1/2 in, celery 3 ft 2 1/2 in in length, parsnips 3 ft 7 in, and beets 1 ft 4 1/2 in. Every article in this class was faultless in shape, color and soundness, including the cucumbers, melons, citrons and tomatoes, the two latter being quite ripe. Kitchen and dairy products were as they should be, and generally are, in great force and of unimpeachable quality, showing that whatever the farmers may do the farmers' wives turn the resources of their department of agriculture to the best possible account. The display of ladies' work in the upper story of the hall was really fine in articles both useful and ornamental. The competition, especially in knit goods, was keen. The flowers shown were not numerous but they were very pretty and added greatly to the attractive appearance of the ladies' display. The arrangements were all that could be desired and everything passed off without the slightest hitch. A dinner to the judges by the directors of the society in the evening

in the Jasper house wound up the days' proceedings.

STEWART & BANNERMAN opened out on Thursday exclusively in the boot and shoe line in the building on Main street formerly occupied by J. A. McDougall & Co. They have a large stock and are prepared to do a wholesale as well as a retail business. It is generally conceded to be a sign of progress in a town when merchants confine themselves to a particular line. It shows that there is or is believed to be a large business in that line, which naturally indicates that there is also a large business in other lines. It also gives promise that goods in that line can be bought to better advantage than before. The merchant dealing in only one line naturally makes larger purchases in that one than if he had to keep up several. He is therefore able to secure better values, for the larger the sale the smaller the profit asked by the manufacturer. Having only one line to depend upon he is obliged to concentrate his attention upon it and see that he is able at all times to supply the public with what they require. The advantage in wholesaling is even greater than in retailing. The establishment of this store is an important addition to the attractions of Edmonton as a wholesale centre for the northern trade.

The first Macleod agricultural exhibition is to be held on Oct. 11th, 12th, 13th and 14th. A copy of the prize list printed at the Gazette office has been received. It is in pamphlet form and is a most creditable piece of work. The prizes are numerous and liberal throughout. In horses and cattle they are 1st diploma, 2nd \$12. The horses include thoroughbreds, roadsters, heavy draught and matched. The cattle include shorthorns, Hereford and polled Angus. There are \$50 prizes for each of four herds of cattle.

The distress from drouth in north-western Texas, continuing since June of 1885, is reported to be very great. Rev. John Brown of Albany, Texas, was in Buffalo lately soliciting aid. He says that half a million people are in danger of starvation, but that the facts are hushed up by the railroad companies. The state of Texas is unable to relieve the distress.
